

The Journey of a Census Form

1/
The Census Forms are designed and checked (and checked again), then translated into Irish (and checked again!).

2/
2 million forms are printed and delivered to our warehouse - they then go to 430 sites around Ireland.

3/
From mid March Census Enumerators deliver forms to every household in Ireland.

4/
Households fill in their Census Forms on April 24th, and they're collected by Enumerators.

5/
The forms are scanned and the information is analysed, summarised and prepared for publication.

6/
The first results of the Census are released to the public in July.
